

Fasteners and Accessories	
TC-1S	Softwood Deck Fastener
	Heavy gauge coated steel fastener for use in 1" (25 mm) or thicker softwood decking
TC-2S	Softwood Deck Fastener
	Heavy gauge stainless steel fastener for use in 1" (25 mm) or thicker softwood decking
TC-3S	Composite, Mahogany, & PVC
	Hardened heavy gauge stainless steel fastener for use in 1" (25 mm) or thicker Composite, Mahogany, & PVC decking
TC-4S	Hardwood & Ipé Fastener
	Hardened stainless steel fastener for 3/4" (19 mm) hardwood decking up to 4" (100mm) in widths
TC-G (TC-150)	Grooved Board Fastener
	Heavy gauge stainless steel fastener for use in 1" (25 mm) or thicker pre-grooved decking or non-grooved boards with TC-G (TC-150) Slot Cutter
TC-120	Grooved Board Fastener
	Heavy gauge stainless steel fastener for use in 3/4" (19 mm) pre-grooved decking or non-grooved board with TC-120 Slot Cutter
Proclip	AZEK® Deck Fastener
	Hardened heavy gauge stainless steel fastener for AZEK® decking
Butt Seam Clip	
	Heavy gauge stainless steel fastener for use in conjunction with the TC-G (TC-150) fastener. The Butt Seam Clip allows the use of 2 fasteners on 1 joist when butting boards
TC-G (TC-150)	Slot Cutter
	Creates custom grooves in non-grooved boards for use with the TC-G (TC-150) fastener
TC-120 Slot Cutter	
	Creates custom grooves in non-grooved boards needed for use with the TC-120 fastener
High Performance Deck Screws	
	2 3/4" (70 mm) coated steel deck screws for use in wood & composite decking. Screws have 3 ring design that draws material down to prevent mushrooming and a 6 lobe drive to help reduce spinout

TC-G Grooved Deck Fastener

Composites or Wood

Installation for TC-G (TC-150) and TC-120 fasteners

Installation for TC-1, TC-2, TC-3, TC-4 and Proclip fasteners

Make Your Tiger Claw Installation Even Easier

Tiger Claw Installation Gun

for grooved decking

The Tiger Claw Installation Gun is a semi-automatic installation tool that increases the speed of the already quick installation of the TC-G (TC-150) fasteners, TimberTech CONCEALoc clips, and Trex HideAway fasteners. The installation time not only increases installation speed but productivity and customer satisfaction. Reduce your labor costs and increase your referrals with the Tiger Claw Installation Gun.

Packaged specifically for use with installation gun:

TC-G
(TC-150)

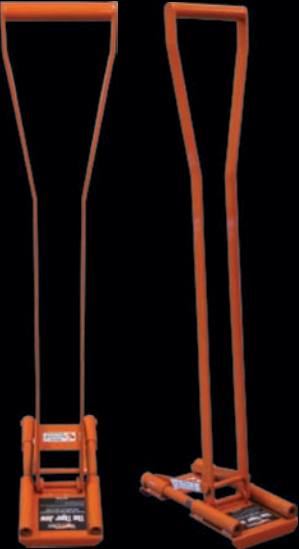

Collated Pneumatic Screws
Approved for use with ACQ

Bucket and Box covers approx. 500 sq. ft
Each product sold separately

The Tiger Jaw

for TC-3, TC-4, and Proclip fasteners

The Tiger Jaw installs decking when using TC-3, TC-4, or Proclip fasteners. Tiger Jaw replaces the need for a 8 - 10 lb. sledge hammer.

The Tiger Jaw is placed over the last secured deck board and the board being installed. One push of the handle and the boards are pressed together.

Tiger Claw’s hardened, heavy gauge steel fasteners create a smooth, “nail-free” surface, that preserves the beauty of the decking material. With outstanding hold-down power, our fasteners reduce splitting, splintering, cupping, and rotting caused by nails and screws. Leaving you with a long-lasting, beautiful deck, that helps save on time, excessive labor costs, and deck maintenance.

Contractor Information

All of Tiger Claw’s outstanding characteristics make for a smooth, better looking, safer deck. Tiger Claw’s Preferred Contractors receive special benefits that demonstrate the company’s extra commitment to helping you grow your business and become more successful in your operation. Also as a member of our Preferred Contractor Program, you can receive great benefit[s] on all Tiger Claw products. For more information, visit www.deckfastener.com/contractor.com

Product Ordering Info

A list of retailers carrying our products can be found under “retailer locator” on our website, www.deckfastener.com. If you cannot find a retailer, please call us at 1-800-92-TIGER (928-4437), where our customer service reps are standing by 7 days a week to handle your questions or concerns.

Our product line is always expanding. To checkout our latest products, watch our demonstrational videos, or order a free copy of our installation video online, visit www.deckfastener.com

Benefits of Hidden Deck Fasteners

Nail and screw hazards reduce the quality, appearance and life of your deck. Tiger Claw Hidden Deck Fasteners reduce those problems and deliver a professional, beautiful, longer lasting deck.

Some benefits of hidden deck fasteners are:

- No Mushrooming
- No Nail Pop
- No Nail Cracks/Splits
- Reduced Wood Rot
